A very warm welcome to all of you to the Annual Scientific Meeting (ASM) of the College of Surgeons, Academy of Medicine of Malaysia, to be held at Shangri-La Hotel in Kuala Lumpur, from 13th to 15th May 2016.

This year, our ASM is special in many ways. The theme, taken from the Greek Mythology “Between Scylla and Charybdis”, describes the dilemma of today’s surgeons when they face critical moments in “Navigating the Treacherous Waters of Modern Surgery” whereby patients’ lives are at risk. Surgeons dread to deal with high risk patients undergoing high risk operations. In a rural setting, a surgeon may also have no choice but to carry out emergency or salvage operation even though he has not been specifically trained for it.

In this modern world, surgeons are expected to keep abreast with the latest advances and best practice, and to stay on par with their peers. With the increased expectation and demand from patients or relatives, they can be pressurised into new treatment options which may not be the best for the patients.

This ASM serves to update our surgeons and trainees. The workshops provide hands-on opportunity for participants to enhance their operative skills. The sharing of ways and means on how best to care for our patients will help promote professional integrity and responsibility towards delivering the best and safe practice.

This ASM covers several areas of interests. A symposium is dedicated specifically to “Women in Surgery”, in recognition of their contributions. The summit meeting of the ASEAN Federation of Surgical Colleges is held for the first time in Malaysia. The Royal College of Physicians & Surgeons of Glasgow is participating in this meeting by having a surgical symposium. This meeting incorporates the 3rd Asian Trauma Congress and a separate one-day programme for the nurses and medical students has also been incorporated.

This gathering of experts, surgeons, doctors, medical students and allied medical staff will provide an opportunity for the sharing of knowledge and experience. It serves as a forum for regional and international collaboration, and helps to foster fellowships and networking.

I hope you will have a great time here. Malaysia has a rich cultural heritage with multi-ethnicity and multi-cultural base, and offers a wide variety of Asian culinary. We hope you will take time off to visit the places of interest both in and outside of Kuala Lumpur.

Peter Wong Toh Lee
The past year has been a difficult one for surgeons. While 'primum non nocere' remains the cornerstone of our practice, the interventional nature of surgery can result in surgeons being held accountable, even for recognized complications, by disgruntled patients. Trial-by-media increasingly shapes public perception of a surgeon’s ability and conduct. Surgery is painted in shades of black or white, when it is actually many shades of grey, a fact that the judiciary is not always equipped to recognize.

Even our interactions with peers and subordinates have been placed under scrutiny. Surgery, it seems, is a hostile environment, with a culture of discrimination, sexual harassment and bullying, where working time directives may have adversely affected surgical training while not preventing burnout. The profession is facing attack from every conceivable direction. Unaddressed, fewer and fewer will contemplate surgery as a career.

It is a surgeon’s nature to battle on, and it was during a particularly trying time last year that I was reminded of another battle: Odysseus, the Greek hero, steering his ship between two perilous foes – Scylla, a vicious multi-headed monster, and Charybdis, a cavernous deadly whirlpool. Passing too closely to either would mean certain death.

This is the dilemma often faced by surgeons, whether deciding the adoption of new technologies, maintaining surgical standards, ensuring the well-being of trainees, working in multi-disciplinary teams without losing autonomy, navigating work-life balance, conducting ethical research or grappling with complex medicolegal issues. Do, or do not – both could have fatal consequences for a patient, or a career.

Ironically, neither Scylla nor Charybdis were originally monsters, but cursed by selfish gods denied their desires. Our solutions, therefore, must be multi-pronged: improve ourselves, educate others, and work with our perceived foes to reach a common goal: better patient outcomes, reduced surgeon burnout and better quality of life for all.

To that end, the Organising Committee has assembled a comprehensive programme addressing each of these issues, with stellar speakers from near and far. And to celebrate the Golden Jubilee of the Academy of Medicine of Malaysia, the College of Surgeons is proud to present an expanded Congress programme.

We have an unprecedented number of pre- and post-congress workshops; plenaries and symposia addressing critical issues in clinical decision-making, research and training; international collaborations with the Royal College of Physicians and Surgeons of Glasgow, the Royal College of Surgeons of Edinburgh, the ASEAN Federation of Surgical Colleges and the Asian Trauma Congress; and, for the first time, concurrent programmes for medical students and nurses. Our hugely popular meet-the-expert sessions return with topics ranging from controversies in breast-conserving surgery to the thorny problem of faecal incontinence. Issues regarding the dearth of women in surgery will be addressed in an inaugural half-day symposium.

We are greatly honoured to have some very special guests: the Malaysian Director-General of Health, Datuk Dr Noor Hisham Abdullah, who has graciously agreed to officiate; Dato’ Dr J C Mehta, our esteemed AM Ismail Orator, a pioneer in Malaysian surgery; and Malaysia’s Iron Lady herself, Tan Sri Rafidah Aziz, who, as a past Minister of Trade and Industry, is well-placed to deliver the Golden Jubilee Plenary.

Finally, we hope to have the pleasure of your company at our Greek-themed Gala Dinner. Dust off your chitons and peplos, and put on your laurel wreaths to be our best-dressed for the night! With special performances and a sumptuous buffet, it is our small way of thanking you for taking time out of your busy schedules to be with us.

May CSAMM 2016 help us steer to safer waters in the coming year!

April Camilla Roslani
Dato' Dr Jasper Cuthbert Mehta is an illustrious giant of Malaysian Surgery. Born in 1934, he qualified in Medicine at the University of Malaya, Singapore, in 1958, and obtained the Fellowship of the Royal College of Surgeons of Edinburgh, in 1966. He served as Consultant Surgeon in many states in the country culminating with his appointment as Head of Surgery for the nation when he was posted to Hospital Kuala Lumpur, in 1983. Dato' Mehta was President of this College from 1993 to 1996.

Throughout his career, he introduced many surgical procedures and specialised clinical services. More importantly, he trained and motivated numerous surgeons who are now senior surgical leaders themselves.

Dato' Mehta possesses many admirable qualities. He is respected for his ethics, integrity and the willingness to learn from all, including those many years his junior. In fact, I first met Dato' when I was working under Professor MMS Krishnan at the University Hospital, Kuala Lumpur, in the mid 1980s. Dato' Mehta, then head of national surgical services with the Ministry of Health, had come to observe and learn operative techniques in transhiatal oesophagectomy.

This enthusiasm to constantly acquire new knowledge and skills, and to share his vast experience and wisdom, continues unabated today, when he has the responsibility of being Person-in-Charge of a large private hospital in Kuala Lumpur.

Our surgical fraternity recognises Dato' Mehta as an inspiring doyen and a true friend.

BREAST ONCOPLASTIC LIVE SURGERY (LEVEL 2 AND 3)

Date : 12th May 2016, Thursday
Time : 0730 – 1800 hrs
Venue : Menara Selatan, 13th Floor, University Malaya Medical Centre, Kuala Lumpur, Malaysia
Convenor : See Mee Hoong

This course will explore Level 2 and 3 oncoplastic approach to breast conserving and pedicled flap reconstructive surgery to improve the oncological and aesthetic outcomes of breast cancer surgery. A systematic approach from principles, treatment planning, oncoplastic surgical techniques will be presented. This is to achieve the best cosmetic results in breast cancer surgery without compromising cancer surgery outcomes.

PROGRAMME

0730 – 0800 Registration and breakfast
0800 – 0815 Welcome speech & Opening ceremony
0815 – 0845 Lecture 1: Principles in oncoplastic breast conserving surgery Elisabeth Elder
0900 – 1000 Case work-up for Case 1 – Central tumour oncoplastic surgery – OT Case 1 Suniza Jamaris
1030 – 1130 Case work-up for Case 2 – Therapeutic mammoplasty – OT Case 2 Teh Yew Ching
1130 – 1230 Lunch Symposium 3
1230 – 1300 Lecture 2: Overview and case work-up for Case 3 – Scarless LD flap Sasithorn Sujarittanakarn
1300 – 1600 OT Case 3
1600 – 1630 Lecture 3: Scarless latissimus dorsi flap Supakorn Rojananin
1630 – 1700 Managing complications and follow-up in oncoplastic breast surgery Elisabeth Elder
1700 – 1800 Q & A and discussion

*Disclaimer: The Oncoplastic course is a demonstration of techniques and not a credentialing course
ADVANCED LAPAROSCOPIC SUTURING

Date: 12th May 2016, Thursday
Time: 0830 – 1645 hrs
Venue: Simulation Lab, Anatomy Department, Faculty of Medicine, University Malaya Medical Centre, Kuala Lumpur, Malaysia
Convenor: Lau Peng Choong
Faculty: Lau Peng Choong, Pok Eng Hong, Siow Sze Li, Rajkumar Vinayak

WORKSHOP DESCRIPTION
In laparoscopic surgery, intracorporeal suturing is an advanced skill. Mastering this skill is difficult and there is a steep learning curve. However, it is essential that every laparoscopic surgeon possesses this skill in their armamentarium as it can help them get out of difficult situations. Many procedures are limited by this step as well. If a surgeon can suture well inside, most procedures can be done laparoscopically.

This one-day intensive practical workshop aims to address this issue by helping the participants progress from basic to advanced laparoscopic suturing. The workshop is delivered by experienced laparoscopic surgeons, providing laboratory-based practice of basic and advanced laparoscopic suturing using dry and wet models.

PROGRAMME
0830 – 0900 Registration and breakfast
0900 – 0910 Welcome address
0910 – 0930 Requirements for laparoscopic suturing – Port placement, needle holders, knot pushers, suitable suture length and ergonomics
0930 – 1000 Video + live demo: Needle introduction, handling, loading, driving through tissue, extraction
1000 – 1030 Video + live demo: Intracorporeal knotting – Interrupted, continuous, slip knot
1030 – 1045 Tea
1045 – 1230 Practical skills sessions (Dry lab)
1230 – 1330 Lunch
1330 – 1400 Laparoscopic suturing in GI surgeries
1400 – 1430 Video + live demo: Extra-corporeal knots
1430 – 1545 Practical skills session (Wet Lab)
1545 – 1600 Tea
1600 – 1630 Assessment (Intra-corporeal suturing and knotting)
1630 – 1645 Q & A, feedback and course closure
HANDS-ON OPEN INGUINAL AND VENTRAL HERNIA – DOWN TO BASICS

Date : 10th May 2016, Tuesday
Time : 0730 – 1700 hrs
Venue : Universiti Kebangsaan Malaysia Medical Centre,
        Hospital Canselor Tuanku Muhriz, Kuala Lumpur, Malaysia
Course Director : Nik Ritza Kosai Nik Mahmood
Organising Committee : Nik Ritza Kosai Nik Mahmood, Mustafa Mohamed Taher, Siti Zalizawati Zainol Abidin
Faculty : Nik Ritza Kosai Nik Mahmood, Mustafa Mohamed Taher

AIMS OF WORKSHOP
1. To provide purely hands-on experience on standard techniques of open hernia repair
2. Concept lectures on different technique of hernia repair including how to avoid complication and tips and tricks on open hernia repair

PROGRAMME
0730 – 0800  Registration and breakfast
0800 – 0815  Welcome speech  Nik Ritza Kosai Nik Mahmood
0815 – 0830  Inguinal hernia anatomical aspects  Mustafa Mohamed Taher
0830 – 0850  Inguinal hernia open surgical repair  Nik Ritza Kosai Nik Mahmood
0850 – 0900  Ideal mesh (Johnson & Johson)
0900 – 1700  Hands-on surgery
The main objective of this one-day workshop is to update Malaysian surgeons on the evolving treatment of breast and colorectal cancer. The lectures and interactive sessions include updates on screening, diagnostics, surgical margins and axillary staging in breast cancer and role of screening, diagnostics, neoadjuvant chemoradiation and surgery in colorectal surgery.

A parallel session on evolving roles and responsibilities of cancer care personnel and an introductory course on breaking bad news and risk communication skills will be included.

Breast and colorectal cancer make up 30% of all cancers in Malaysia. The talks and interactive sessions include updates on surgical margins and axillary staging in breast cancer and the role of screening and treatments in colorectal surgery. The evolving roles of nurses in breast care and stoma nursing will be presented. A parallel session on the latest updates on skills for breaking bad news at diagnosis, shared decision making and a hands-on communication skills workshop will be conducted.

3RD ASIAN TRAUMA CONGRESS

Date : 12th May 2016, Thursday
Time : 0800 – 1615 hrs
Venue : Advanced Surgical Skills Centre, Universiti Kebangsaan Malaysia, Kuala Lumpur
Convenor : Razman Jarmin
Section : Challenges in trauma
Organising Chairman : Razman Jarmin

0800 – 0845 Registration and breakfast
0845 – 0900 Welcoming speech Razman Jarmin
0900 – 0945 PLENARY 1
   Trauma surgery in austere environment – Lahad Datu revisited Rizal Imran Alwi
0945 – 1045 MASTERCLASS IN TRAUMA I
   1. Managing the vascular injury of the extremities Hanif Hussein
   2. Guidelines in managing blunt pancreatico-duodenal injuries Affirul Chairil Ariffin
1045 – 1100 Tea
1100 – 1230 MASTERCLASS IN TRAUMA 2
   1. Approach in managing neurosurgical trauma Ainul Syahril Fazli
   2. Approach for renal injury Praveen Singham
   3. Role of interventional radiology in trauma Nur Yazmin Yaakob
1230 – 1315 Lunch Symposium
   Effective and safe haemostatic agent
1400 – 1445 PLENARY 2
   Trauma centres: Will trauma centres work? An emergency physician’s perspective
   Ismail Saibon
1445 – 1545 Battle of the wits
   1. Trauma resuscitation should be run by emergency physicians
   2. Male doctors make better trauma specialist
      Surgical and emergency physician trainees
1545 – 1615 Pop quiz
SCIENCE OF TISSUE MANAGEMENT  *(Johnson & Johnson)*

**Date:** 11th May 2016, Wednesday  
**Time:** 0900 – 1745 hrs  
**Convenor & Chairperson:** Sandip Kumar  
**Main Faculty:** April Camilla Roslani, Vickneswaran Mathaneswaran, Chong Hoong Yin  
**Supporting Faculty:** Vikram Jaisinghani, B Satyanand Shastri  
**SoTM:** “HOW DO WE CONNECT THE NEEDS OF TISSUE, TO THE SKILLS OF THE SURGEON, TO THE BENEFITS OF THE PATIENT”

This workshop is targeted to surgical trainees and medical students and provides a platform with hands-on opportunity where sound understanding and in-depth knowledge on device-tissue interaction and Science of Tissue Management (SoTM) can be obtained. It would involve sharing the latest information and innovations in Stapling, Energy Devices, Abdominal Wound Closure and Intra-operative Bleeding Management and will be divided into a morning lecture session and an afternoon hands-on lab session.

**LECTURE**  
**Venue:** Clinical Auditorium, Faculty of Medicine, University Malaya Medical Centre, Kuala Lumpur, Malaysia  
0900 – 0930  Registration and breakfast  
0930 – 0940  Welcome address  *April Camilla Roslani*  
0940 – 0950  Introduction to Science of Tissue Management (SoTM); Overview and history  *B Satyanand Shastri*  
0950 – 1050  SoTM ENERGY  *April Camilla Roslani*  
1100 – 1130  Lab demonstration; Electricity  *April Camilla Roslani*  
Q & A  
1130 – 1230  SoTM Stapling  *Zaidi Zakaria*  
1230 – 1300  SoTM Bleeding Management  *Vickneswaran Mathaneswaran*  
1300 – 1330  SoTM Abdominal Wall Closure  *Azim Idris*  
1330  Lunch  
End of lecture session

**HANDS-ON & LAB DEMONSTRATION**  
Clinical Skills Unit, Faculty of Medicine, University Malaya Medical Centre, Kuala Lumpur, Malaysia  
1430 – 1640  Lab stations:  
1. ENERGY; Ultrasound and Bipolar  *April Camilla Roslani*  
2. Open Stapling; NTLC and CDH  *Chong Hoong Yin*  
3. Endo Stapling; GST and Powered Echelon  *Zaidi Zakaria*  
4. Bleeding Management; Fibrillar and SNoW (deployment method)  *Vickneswaran Mathaneswaran*  
5. Abdominal Wound Closure; Loop PDS, Single strand PDS with self-locking knot and Stratafix  *Azim Idris*  
1630 – 1645  Tea  
1645 – 1745  Lab demonstration continues  
1745  Closing & Group photo  
End of lab demo session
NON-TECHNICAL SURGICAL SKILLS (NOTSS) – SAFER OPERATIVE SURGERY (SOS) FOR HIGH PERFORMING TEAMS IN THE OPERATING THEATRE

Date : 12th May 2016, Thursday
Time : 0830 – 1700 hrs
Venue : Bilik Serbaguna, Faculty of Medicine, University of Malaya, Kuala Lumpur
Invited Faculty : Simon Paterson-Brown, Lim Kean Ghee, Andre Das, April Roslani, Yeap Chee Loong

(Introducing the role of human factors and non-technical skills)
An extended workshop of lectures, interactive discussion and video scenarios

0830 – 0900  Registration and breakfast
0900 – 0915  Introduction
0915 – 0945  Background to adverse events in healthcare and the global response
0945 – 1015  Human factors and their role in adverse events and healthcare
1015 – 1045  What makes a successful operating theatre team?
1045 – 1100  Coffee/Tea
1100 – 1145  Non-technical skills in the operating team. NOTSS, ANTS and SPLINTS
1145 – 1230  Cognitive skills, barriers and solutions
1230 – 1330  Lunch
1330 – 1430  Social skills, barriers and solutions
1430 – 1530  Team brief, checklist and de-brief
Take-away tips
Assessment of video scenarios
1530 – 1545  Tea
1545 – 1645  Discussion
Malaysia aspires to developed nation status by the year 2020. Nevertheless, provision of healthcare still lags behind that expected of developed nations in a number of areas. In particular, Malaysia is critically short of specialist surgeons, with a ratio of approximately 0.3 per 100,000 population, as compared to the US, which has 8 per 100,000 population.

While more than 5000 junior doctors are currently being produced every year, women form less than 10% of surgeons in Malaysia, and less than 20% of surgical trainees. This is despite medical school enrolments of women comprising more than 60% of the total intake. It is critical that we address the reasons why very few go on to a career in surgery, whether it’s work-life balance issues, gender discrimination, bullying etc. if we are to ensure adequate surgical services for the nation in the future.

It is with this in mind that the College of Surgeons Annual Scientific Meeting in 2016 (concurrent with the Academy of Medicine’s Golden Jubilee) is organising a half-day symposium looking at the current status, obstacles and issues, as well as developments in future, with regards to redressing the balance of women in surgery. A distinguished panel of speakers and mentors has been assembled, to share their experiences coming through the ranks, to help generate discussion from students, trainees and junior surgeons on strategies and tips for success. It is hoped that this would culminate in the establishment of a Women’s Chapter within the College, to help mentor trainees to achieve success.

**13th May 2016 (Friday) and 14th May 2016 (Saturday)**

1300 – 1400  **Women In Surgery Focus Group Discussion (by invitation only)**
0730 – 0830  MEET-THE-EXPERTS 1  |  Hepatobiliary
Moderators: YOONG BOON KOON, KOH PENG SOON
Advances in understanding acute pancreatitis and their implications
John Windsor (New Zealand)

0730 – 0830  MEET-THE-EXPERTS 2
Moderators: NOR AINA EMRAN, TAN GIE HOOI
Controversies in breast conserving surgery
Elisabeth Elder (Australia), Supakorn Rojananin (Thailand), Farhana Fadzli (Malaysia)

0830 – 0900  PLENARY 1  |  Keynote Lecture
Chairperson: PETER WONG TOH LEE
The delivery of health services for tomorrow’s Malaysia: Challenges and solutions
Noor Hisham Abdullah (Director-General of Health, Malaysia)

0900 – 1030  OPENING CEREMONY
Guest-of-Honour: Noor Hisham Abdullah, Director-General of Health, Malaysia

1030 – 1100  Tea / Poster Viewing / Exhibition

1100 – 1230  SYMPOSIUM 1  |  Colorectal – Beware Greeks Bearing Gifts
Chairpersons: SANDIP KUMAR, CHONG HOONG YIN
1.1 Anastomotic leak: The do’s and don’ts
Akhtar Qureshi (Malaysia)
1.2 Is radical surgery still necessary? The role of fluorescence imaging in intraoperative colorectal cancer staging
David Jayne (UK)
1.3 When your friendly obstetrician calls: To repair OASI or not?
Monica Millan (Spain)
1.4 When surgical colleagues ask a favour… Re-operative surgery for haemorrhoids
Ismail Sagap (Malaysia)
1.5 Surgery for advanced colorectal cancer: How far should one go?
Melissa Teo (Singapore)

Chairpersons: NUR AISHAH TAIB, HARJIT KAUR PERDAMEN
2.1 Dilemmas in surgical management of early breast cancer
Yip Cheng Har (Malaysia)
2.2 Risk-reducing mastectomy – Who and how
Elisabeth Elder (Australia)
2.3 Controversies in the management of metastatic breast cancer
Supakorn Rojananin (Thailand)
1100 – 1230 SYMPOSIUM 3 | Vascular – Devil’s Advocate
Chairpersons: PATRIANEF, AZIM IDRIS

3.1 The challenges of being a vascular surgeon in a developing country
Suhartono (Indonesia)

3.2 Ruptured abdominal aortic aneurysm: Between the devil and the deep blue sea
Zainal Ariffin Azizi (Malaysia)

3.3 Endovascular stenting of abdominal aortic aneurysm: Should we now be treating small aneurysms?
Benjamin Chua (Singapore)

3.4 Creating arterio-venous fistula (AVF), an expert’s job?
Tan Kia Lean (Malaysia)

1230 – 1330 Lunch Satellite Symposium (Merck Sharp & Dohme)
Chairperson: TIKFU GEE

Deep neuromuscular blockade: Is it necessary?
Patrick Tan (Australia)

1300 – 1400 Women In Surgery Focus Group Discussion (by invitation only)
KEDAH ROOM

1330 – 1430 Friday Prayers

1430 – 1500 PLENARY 2 | To Ask The Oracle At Delphi…
Chairperson: APRIL CAMILLA ROSLANI

Robotic surgery for colorectal cancer: The future, or the past?
David Jayne (UK)

1500 – 1630 SYMPOSIUM 4 | Asian Surgical Trauma Update
Chairpersons: RAZMAN JARMIN, MOHD YUSOF ABDUL WAHAB

4.1 The best option for hemostasis in trauma haemostasis
Joel Macalino (Philippines)

4.2 Ribs fracture: Surgery vs conservative management
Narain Chotirosniramit (Thailand)

4.3 The open abdomen in trauma – The options for closure
Rizal Alwi (Malaysia)

4.4 Managing mass casualties
Teo Li Tserng (Singapore)

1500 – 1630 SYMPOSIUM 5 | The Head And The Neck – The Seven Heads Of Hydra
Chairpersons: LOKMAN SAIM, KONG MING HAN

5.1 Non-selective recurrent laryngeal nerve repair in unilateral vocal fold paralysis
Marina Mat Baki (Malaysia)

5.2 Preservation of great auricular nerve in parotid surgery
Avatar Singh (Malaysia)

5.3 Nasopharyngectomy. Open versus endoscopic approach
Baharuddin Abdullah (Malaysia)

5.4 Secret window to parapharyngeal space tumour
Mohd Razif Mohamad Yunus (Malaysia)

Rashid Subahan (Malaysia)

Neonatal & paediatric circumcision – How I do it
Clarence Lei (Malaysia)

Circumcision complications – Cases, pitfalls and medico legal consequence
Clarence Lei (Malaysia)

0700 – 0800  MEET-THE-EXPERTS 6 | Colorectal
PENANG ROOM

‘To Hades And Back...’
Moderators: NURHASHIM HARON, LUQMAN MAZLAN

Surgery for faecal incontinence
David Jayne (UK)

0800 – 0930  WOMEN IN SURGERY SYMPOSIUM (refer to Intra-Congress Workshop on page 16)
JOHOR ROOM

0800 – 0930  SYMPOSIUM 13 | Surgical Controversies 2
SABAH ROOM

Chairpersons: ISMAIL SAGAP, LIM KEAN GHEE

13.1 Lung metastasectomy – When, why and how?
Mohd Hamzah Kamarulzaman (Malaysia)

13.2 Brain metastases – Is it the end of the road or have we just started?
Harichandran Thambynayagam (Malaysia)

13.3 What is the actual age for paediatric surgery? 12 or for life?
Zakaria Zahari (Malaysia)

13.4 Death of general surgery? Over my dead body!
Abdul Jamil Abdullah (Malaysia)

13.5 Empyema thoracis: Medical or surgical treatment?
Mohd Yusof Abdul Wahab (Malaysia)

0800 – 0930  SYMPOSIUM 14 | Free Paper 2: Motion Pictures
KEDAH ROOM

Chairpersons: CHIN KIN FAH, NURHASHIM HARON

0800 – 0930  SYMPOSIUM 15 | Urology – The Castration Of Uranus
SELANGOR ROOM

Chairpersons: CLARENCE LEI, AZAD HASSAN RAZACK

15.1 Male Lower Urinary Tract Symptoms (LUTS) – Can it be Over Active Bladder (OAB)?
Rohan Malek (Malaysia)

15.2 Prostatic Specific Antigen (PSA) and prostate cancer screening – Where do we stand today?
Teh Guan Chou (Malaysia)

15.3 Prevention, diagnosis and management of ureteric injuries
S Selvalingam (Malaysia)

15.4 Late onset hypogonadism – Myth or reality?
Christopher Ho (Malaysia)

15.5 Men’s health – Hard to heart talk?
Zaikifli Zainuddin (Malaysia)
0930 – 1015  SATELLITE SYMPOSIUM (AstraZeneca)
Chairperson: HANAFIAH HARUNARASHID
Adenocarcinoma of the gastro-oesophageal junction; The rise of a silent killer
Nik Ritza Kosai Nik Mahmood (Malaysia)

1015 – 1030  Tea

1030 – 1200  SYMPOSIUM 16  | Surgical Education And Training
Medea’s Cauldron Of Regeneration
Chairpersons: ZAIDI ZAKARIA, NASSER MUHAMMAD AMJAD
16.1  Surgical training: If I can turn the clock back
Freda Meah (Malaysia)
16.2  The lost tribe of surgical doctors
Abdul Jamil Abdullah (Malaysia)
16.3  Parallel pathway: Is it what the country needs now?
Zainal Ariffin Azizi (Malaysia)
16.4  Surgical training: How long should it be?
Mahmud Mohd Nor (Malaysia)
